Our Facilities

- Digitally-enhanced classrooms with projectors, smartboard devices, air-conditioners etc.
- Serene, colorful and safe learning environment.
- Our staff are well-trained, tested, exposed and experienced professionals.
- Modern Science Laboratories, Arts Studio, Musical Instruments, Well-stocked Library, School Kitchen, a Computer/ICT Hub with Internet Facility, a School Farm and Mini-poultry, Sports field and equipment for Basketball, Table Tennis, Football, Judo and other indoor games.
- Comfortable Hostel Facility for Male and Female Boarding Students.
- Mid-Day Meals and Bus Run Services.
- 24-Hours Security personnel 7 days a week.

Our Performance

We have Excellent results in both Internal and External Examinations:

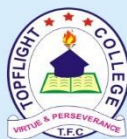

2018 SSCE WAEC 95%
2017 SSCE WAEC 94%
2016 SSCE NECO 100%
2015 SSCE NECO 93%
2014 SSCE WAEC 91%
2013 SSCE WAEC 85%

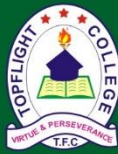

Some Awards & Prizes

- DIY Air-Conditioner Invention
- 2016 1st in Children's Day Ambassador for Peace
- 2016 1st in Invitation Relay Sports of many schools
- 2016 Best School in Gbagada - UNESCO Report
- 3 Times Winner of Lagos Zone ICT NCS Competition
- Winners of Several Debates & Quizes

EXPERIENCE EDUCATION THE TOPFLIGHT WAY

NATIONAL ANTHEM

Arise o compatriot
Nigeria's call obey
To serve our fatherland
With love and strength and faith
The labour of our heroes past
Shall never be in vain
To serve with heart and might
One nation bound in freedom
Peace and Unity.

Oh God of creation
Direct our noble cause
Guide our leaders' right
Help our youth the truth to know
In love and honesty to grow
And living just and true
Great lofty heights attain
To build a nation where peace
And Justice shall reign.

NATIONAL PLEDGE

I pledge to Nigeria my country
To be faithful, loyal and honest
To serve Nigeria with all my strength
To defend her unity
And uphold her honour and glory
So help me God.

OUR VISION

Topflight College is to provide a qualitative education for the benefits of Nigerian youths, which represents the diverse cultures of the Nation, in order to instill discipline, leadership orientation, best performance and all round training which will distinguish them within and beyond the immediate society.

SCHOOL ANTHEM

Hail Topflight School
Hail Topflight School
A citadel of knowledge
An epitome of care
Planted to give hope
For the future generation
And God is always
By our side

Great Topflight School,
Great Topflight School
Your hope is in thy Creator
Your strength is in Him
Hail Topflight School
You are, so really great
For God is your solid rock

SCHOOL PLEDGE

I pledge to Topflight College
To show forth the light
In my words, thoughts and deeds
To be diligent, honest and obedient
To be a pride to Topflight College
And Nigeria my country
So help me God. Amen.

MISSION STATEMENT

To provide a balanced comprehensive education for the intellectual development of the students through fear of God, hard work, honesty, humility, responsibility, cordial relationship and loyalty.

Of Blessed Memory

DIRECTOR'S SPEECH

It's the end of another school year. I am excited to be part of those privileged to witness it .I thank God almighty for the gift of life and the spiritual blessings. He is the rock on which we stand. I am also grateful to both parents and guardians who have made investment in their children's education their top priority; I thank them for choosing Topflight College as a channel to realize that purpose. I rejoice and celebrate with all our year 12 students for blazing the trail. You are the achievers we are crowning today, may your crown not be removed in Jesus name.

Under our watch, you have grown into young adults who are emotionally and intellectually mature, you have largely replaced your childhood innocence with maturity, timidity with assertiveness, crudity with civility and aggressiveness with humility. You are now someone whose opinion count, as well as an important member of your family and society.

I want you to realize that your family expects so much from you, having invested so much. This is not the time to relent; you are still on a long walk to progress, and must keep your vigour and enthusiasm at its peak to walk yourself into the glory. Keep faith alive and be ready to pay the sacrifice of hard work, because hard work does not kill, rather laziness does. Hard work straightens and tasks your intellect to work in the direction of your goal. Hard work will transform you from a mere dreamer to an achiever. Hard work is the destiny changer.

As you strive for your goal in life, do not forget **THE SIX PILLARS OF CHARACTER** (TRUSTWORTHINESS, FAIRNESS, RESPECT,

**PASTOR (MRS) PAULINA
DENOKONERE ADEYEYE**

**R E S P O N S I B I L I T Y ,
CITIZENSHIP AND CARING)** we have inculcated in you, and most importantly, put God first in everything you do. Again, make integrity your guiding principle, let your 'yes' be 'yes' and 'no' be 'no'. Indeed you will be an overcomer.

The 2017/2018 academic session has been very phenomenal; it marked the end of manual teaching/learning and began the era of digital teaching/learning in Topflight

College. Projectors, magnetic boards and E-learning devices were provided for all our classrooms. We also provided air conditioners and fans to make the classroom very conducive to learning. Digital learning has made it possible for students to learn with the aid of active visuals and demonstrations in the class. We are confident that it will help in effective learning and retention.

The management has also embarked on the construction of science laboratories and as well as provision of science tools and accessories in order to promote the study of science subjects in the school.

In addition, we are on the verge of embracing international education through the introduction of IGCSE examinations. We are working in collaboration with the relevant organizations to make this happen.

We therefore implore you to continue to patronise our school for quality education for your children and loved ones. May God bless you all. **Thankyou.**

Graduation Speech:

Dear outgoing students, six years ago, you began a journey; It was a journey of intellectual development that has led to this colourful graduation day, I must say that it gives me great pleasure to have participated in your educational and psychological growth.

We are all indebted to the Almighty God for making it possible for us all to see this great day. Over the past academic year, I watched the graduates work exceptionally hard both day and night (especially those who boarded in the Hostel facility). Many times they came to me, somewhat overwhelmed by the whole experience. I also saw their teachers and parents sacrifice their time, energy and resources to support them in their journey to the successful completion of secondary school and today it has all paid off.

But it doesn't end here, the saying goes that "the reward for hard work, is *more work!*" The journey has in fact, only begun.

Be sure to keep in mind the life lessons "Tough times don't last, but Tough People do!" which you have learned in school. So when life throws you difficulties, don't give up! Always remember you are to the pride of your family, our school and the nation, be bold and fearless no matter what comes your way, and always remember, every problem has a solution! Never stop praying for God's guidance and assistance in all your endeavours. I believe you are all ready to tackle the next set of challenges which are to ensure you grow further.

To the Junior Graduating Class, a big congratulations to you as you step into the Senior school. Each of you has grown in a way that you should be proud of but keep in mind that this new phase of your education will demand more from you than the previous. Set your mind on excellence and greatness in all that you do.

To our dear Parents and well-wishers, I would like to use this opportunity to appreciate you for your invaluable input and continuous support.

I also want to thank the dedicated teaching and non-teaching staff of Topflight College. They deserve to be praised for their skill and dedication to the task of educating the students is enormous. We are proud our school has gone to greater heights by revamping of the School Buildings, Laboratories and Library, the reinforced Electric Power supply, and the Implementation of the E-learning Classroom project among other things.

I conclude in the words of our late Chairman, Board of Governors, Late Mr. Adeniran Jacob Adeyeye, who said "We will not rest until Topflight Students are distinguished as the best of the best in every area of discipline". This is our mandate and legacy. Thank You!

EFFECTIVE EXAMINATION TECHNIQUE

A great number of students finds it difficult to pass internal and external examinations. Some still fail or may perform below expectation even after burning the mid night oil. These are the ones that deserve our pity. If after swotting you still did not do well in your examinations, it might be about time you studied the techniques you have been using. The difference between an average student and a high flier often times lies in the examination techniques employed. Examinations are not passed by just swotting but by examination techniques. In this piece, we shall be looking at some simple techniques developed by educational experts which, of course, have helped many students pass their examinations with excellent grades.

True, many books abound on examination techniques and some of these are good. It might even be possible that most of the students that fail or those that pass with the skin of their teeth do not know the existence of these books. Then, a large percentage of those who are aware of their existence do not read them or read them but do not apply the techniques suggested. Let me repeat, examinations are not passed by swotting but by examination techniques. Examination technique is the attitude and method a student develops to help him study and master areas that would be set in examination papers in various subjects. Some of these techniques are ineffective and tend to derail students while some are very effective and give students the needed impetus to excel.

The techniques outlined here are directed toward Chemistry and Mathematics, but they can equally be applied to other subjects with excellent results. First and foremost is to develop a good study habit. A habit is something you do regularly without compunction. You must enjoy and relish studying.

This is because studying involves mental activity and also restricts you to a particular place for some time. A listless or hyperactive person may find it extremely difficult to study. Again, you must be able to distinguish between reading and studying. Reading is just one aspect of studying. Studying involves the use of the **SQ3R** (Surveying, Questioning, Reading, Reciting, and Reviewing). In studying, you must commit your brain, you eyes and your hands to work. That means, you must concentrate or focus your attention to your study materials. You must not be distracted by music or movie and you must not stop your study to run an errand. You must scribble or draw or plot or jot or calculate or highlight as you study. In this way you commit your hands to work. You must question, agree with or refute a point of view as you study. In this way, you will always remember what you have studied.

Okoye Pius (Principal)

Another aspect of examination techniques involves knowing the contents of the syllabus or scheme of work of each subject. Ability to remember and recall the topics of a scheme of work or syllabus of a particular subject goes a long way to helping you remember what you have studied.

Also, before the examination you must do well to acquaint yourself with what examiners look for in an answer booklet. You must understand that examiners use instructions to help you to decide the length and depth of your answer to a question. Yes, you must be familiar with the language of examination papers.

KEY POINTS:

- * **THE LANGUAGE IN EXAMINATION PAPERS**
- * **SOME DOS AND DON'TS DO**
- * **FOUR WAYS TO IMPROVE YOUR GRADE**

VICE PRINCIPAL'S ADMINISTRATION DESK

I would like to start by congratulating the graduation class of 2018. You are the reason for this season. We celebrate you today because you have fought a great battle and emerged victorious. Most of your colleagues who started with you some years ago are not here today. They are either not able to complete their studies for some unpleasant reasons or passed on. You should consider yourself very lucky, not only because you have seen the end of your academic endeavour at the secondary level, but because you have finished well. There is a saying that success is the fragrance of joy when the goal has been achieved. Today, I celebrate with you because of your achievement and pray that no circumstance or situations will take you back to where you have left in Jesus' mighty name.

As you move on along your ladder of progress, you must guard against the spirit of pride, arrogance and disdain to people around you and those you would later meet. You need to be meek and respectful to attract Godly favour to yourself. Your present achievement is very deceptive; do not allow it to get in to your head. You still have many miles away to tread. I trust that God will give you the mind of perseverance and steadfastness to get to your goal.

My dear graduands , you have been with us for a good number of years , and we have become very fond of you. We have become so passionate with you that we feel reluctant to let you go. But life is a game of meeting and parting, therefore, with pains in our hearts and tears in our eyes we are reluctantly letting you go. We are letting you go to pursue higher achievement and higher goals knowing fully well that when next we meet we shall have cause to celebrate much better.

We would like to advise other students to endeavor to surpass your achievements. They must show greater commitment and dedication to attain the height we have set for them. The school is now better equipped more than ever before we now have e-learning facilities in our class rooms and

the classes have been made more conducive through the installation of air conditioners and fans. Besides, the old classroom furniture have been replaced with the modern ones .The teachers have been trained and retrained on the use of ICT for instructional purposes. Surely, with the new facilities in place our lessons are expected to be much more result oriented next term.

I therefore implore our current students and the outgoing students to make it a point of duty to recommend the school to all their friends and neighbours. No one can be a better spokes- person of your school than you.

I wish to express my profound gratitude to our beloved parents and guardians. Parenting has its joy and pains. It is painful going through the long and tedious journey to see your children through school, now it's joyful to see them looking radiant in their best attire and academic robe of excellence. Today, our joy is complete as we crown our graduands for their excellent feat.

I wish you all success as you strive to carve a niche for yourselves while contributing your own quota towards the development of your community, your country and the world .

Uduak Alexander
Vice Principal Administration

FROM THE COUNSELLING DESK

This department felicitates and celebrates our graduating students and wishes them good luck in their entire future endeavor.

As you enter into the new phase of life, be rest assured that life will not give you what you desire but what you demand. Since the essence of life is to make progress, you are therefore encouraged to be of good behavior at all times, be focused in all you do, take decisions that will improve your life, be willing to face challenges as this will help to bring out the creativity in you. Never be discouraged in pursuing your goal in life. To those of you that will enter universities in September, study the university community, be conscious of the type of friends you keep. Explore all the available opportunities there and make use of those that can add value to your life.

You need information at every stage of your life to get to the next level. Please make every effort to get every information that will fast track the realization of your goal. Above all, you need to partner with God like Daniel did and don't compromise your faith in God. I wish you good success and God abundant blessings in life.

Adelu Ebunola
Guidance Counselor

DON'T QUIT

BY QUEEN OKON SS1

When things go wrong as they sometimes will,
When the road you're trudging seems all up hill,
When the funds are low, and the debts are high,
And you want to smile but you have to sigh,
When cares are pressing you down a bit,
Rest if you must, but DO NOT QUIT.

There will be mountains you will have to climb
There will be battles you have to fight
But Victory or Defeat, it's up to you to decide
But how can you expect to win if you never try
Nobody says the road would be easy
Don't give up, DON'T QUIT

Success is failure turned inside out,
The silver tint in the clouds of doubt,
And you can never tell how close you are,
It may be near when it seems so far,
So stick to the fight and when you are hardest bit,
It's when things go wrong that you must not quit,
"CONSULT not your fears but your hopes and your dreams,
Think not about your frustrations,
But about your unfulfilled potential,
Concern yourself and not with what you tried and failed in,
But with what is still possible for you to do.
KEEP WALKING! DON'T QUIT

WHAT WILL HAPPEN IF THE EARTH STOPS SPINNING?

The earth rotates at a speed of 1000km/hr giving us night and day while harnessing winds, tides and temperature. So what would happen if these revolutions that are so vital to our existence when it suddenly stops?

Imagine having the fastest car in the world driving on a straight road with no traffic lights, no bumps or highway patrol officer. So you decide to test it at its too speed and you are driving at 1000 miles/hour. Out of nowhere, an obstacle came and you hit the breaks your car stops but *you* don't!

That's what will happen at the moment the earth stops spinning, everything that is not safely secured or tied down will be suddenly sent flying eastward at 1000 miles/hr. Humans, cars even animals inclusive

The fastest wind ever recorded was 250 miles/hr and in this scenario we are talking about winds four times as strong! It will be an atomic blast and in less than a minute, towering tsunamis would sweep more than 17 miles inland.

All the water from the world's ocean would surge towards the poles since the globe bulges at the equator, the north and south poles are closer to the centre of the earth and would leave a stronger gravitational pull, therefore the several seas would turn into two, forming one-mega ocean in the north and another in the south. Canada and most of Europe and Russia would be completely submerged, Boston, Chicago would also be under water along with parts of Argentina, Chile and New Zealand.

The oceanic displacement would form a massive super-continent along the equator wrapping around the entire earth. While this might make it easier to any surviving humans to work together, there would be little anyone could do to improve their lot. Resources would be scarce, the world would experience a wide-scale drought, and most species would be endangered if not already extinct. Agriculture would be nearly impossible to maintain since a full day would now last an entire

year, in other words, you would see the sun for six straight months in one part, and the other half of the year in darkness. This would also inhibit the natural transition between seasons the final fatal consequence would be the loss of our magnetic field, which ensures our survival by reflecting solar rays which would otherwise rip through our ozone layer and blast us with harmful radiation.

Deadly cosmic rays would effectively kill all living things on the planet and over time, the world as we know it would turn into mars as we know it.

Even if we don't suddenly come to a screening stop, the world would one day stop spinning in about 18.5 billion years. So for now, enjoy the time you have here, sieze the day and make every night great. Thank you.

Mr. Asare Kayode
Physics Teacher

HEAD GIRL'S SPEECH

I have looked forward to this day with lots of anxiety and waited for the year it will be our turn to occupy the gold circle seat. The truth we must all come to realize is that all good things must come to an end. Our time at Topflight College has been quite

memorable. There are people here that have become part of me, that no matter how far I have gone, they will always remain in my memory.

To the other students, the journey of school may seem so long, but with consistency it will be over. As you continue your journey through secondary school, always bear in mind the words of Isaiah 40:31 "But those who wait on the Lord shall renew their strength, they shall mount up with wings like

eagles, They shall run and not be weary; They shall not grow faint". I urge you to cherish this particular period of your life.

To my dear guardians Mr. and Mrs. Ordia, I would like to use this opportunity to appreciate you for your love and care. Despite your tight budget, you never complained about the cost of my education. I know how much you have sacrificed for me. May God bless you abundantly. Today, I feel very proud to be graduating from one of the most prestigious secondary school in Lagos state: Topflight College. This achievement would not be possible without your support both emotionally and financially.

To my wonderful teachers: Mrs. Robert, Mrs. Olorunkoya, Mr. Uduak, Mr. Otu, Mr. Okoye, Mr. Olumorin, Mr. Daniel, Mr. Adelu, Mrs. Nwaike and so on. I just want to thank you all for always being there for us.

To my friends, who were always there whenever I needed help, Temitope Bakare, Sule, Eriama Ebuka, Amaka and so on, thank you for your support. May God be with you all.

Lydia Joseph
Head-girl 2017/2018

YEAR 12

Name: Ugbor Ugonna Veronica
D.O.B: 3rd of November, 2001
Future Ambition: Surgeon, Make-up Artist
Hobbies: Reading, Dancing, Smiling
Role Model: My family
Best Moment: Every moment I spent with my class mates.

Name: Joseph Lydia Inory
D.O.B: 1st May, 1999
Future Ambition: Lawyer
Hobbies: Drawing and Designing
Role Model: Mrs. Ordia
Best Moment: The day I was appointed as the head girl

Name: Bakare Olusegun Temitope
D.O.B: 8th May, 2001
Future Ambition: Footballer & to be famous
Hobbies: Playing Football
Role Model: Julian Brand
Best Moment: The day I played football match for Topflight

Name: Eriama Ebuka Eluis
D.O.B: 04 - 01 - 2001
Future Ambition: Lawyer, Politician
Hobbies: Reading, Dancing
Role Model: Aliko Dangote
Best Moment: The day I scored a goal against my teachers in a football match

Name: Onatola-Morakinyo Oluwagbemisola
D.O.B: August 13th, 2002
Future Ambition: Successful Accountant
Hobbies: Dancing, Watching TV
Role Model: Omotola Jalade
Best Moment: The times I spent with my class mates.

Name: Emefienem Nwamaka
D.O.B: 13th of May, 2002
Future Ambition: A petroleum geologist
Hobbies: Reading and Singing
Role Model: My Mum and Dad
Best Moment: Every moment I spent with my school.

YEAR 12

Name: Lawal Hafuzat Damilola
D.O.B: 19th September, 2002
Future Ambition: Mass Communication
Hobbies: Reading Books
Role Model: My Mum
Best Moment: The day I finished my WASCE

Name: Igbokwe Chukwuebuka
D.O.B: 25th May, 2001
Future Ambition: Aeronautic Engineer
Hobbies: Hanging out with friends
Role Model: Neil Armstrong
Best Moment: 04/02/18 The times I spent with my friends.

Name: Olulana Ibukunoluwa Yemisi
D.O.B: August 19, 2002
Future Ambition: Business Admin. and Caterer
Hobbies: Singing, Reading
Role Model: The Lord Jesus Christ
Best Moment: When I am in the presence of God

Name: Onoh Ihuoma
D.O.B: December 8, 2001
Future Ambition: Lawyer
Hobbies: Reading, Singing and Hanging out with friends
Role Model: Daddy
Best Moment: When I joined Topflight College

Name: Ememobong Ikemesit Ikput
D.O.B: 30th October, 1999
Future Ambition: Doctor
Hobbies: Swimming, Watching TV

**QUOTES OF THE YEAR**

Warren Buffet: Honesty is a very expensive gift, don't expect it from cheap people.

Bill Gates: Its fine to celebrate success but it is more important to heed the lesson of failure.

WORDS TO THE CELEBRANTS

The place of education in human existence cannot be Over-emphasized.

The scripture says "little flocks do not despise the day of thy little beginning, for it is thy fathers will to give you the kingdom"[Luke 12v.32].

There is the saying: A MIGHTY ocean begins with drops of water and if the source refuses to stop, the drops of water become the mighty ocean.

I give glory, honour and adoration unto GOD for sparing your lives from the genesis of your educational career untill today.

I say bravo to your academic achievement in this citadel of learning With all this I wish all the graduating students a very good life as well as God's guidance and blessings in all the stages of their lives, AMEN.

BY DORATHY ANAMILO - SS2

JOKES

In an interview examination, the following took place:

First boy: Good morning sir

Teacher: How are you?

First boy: I'm Fine

Teacher: Who is the person on the 100 naira note?

First boy: Obafemi Awolowo sir

Teacher: Okay, when was Nigeria's Independence?

First boy: October 1st, 1960.

Teacher: Good. Did Nigeria also become a republic in 1960?

First boy: Yes, but it was not official until 1963.

Teacher: Very Good! Next Candidate!

(OUTSIDE THE EXAM ROOM)

Another boy asked the first boy what all the answers were and the first boy replied "number one is Obafemi Awolowo, Number two is October 1st,1960 and three is Yes but it was not official until 1963".

(THE SECOND BOY STEPS INTO THE EXAM ROOM)

Teacher: What is your name?

Second Boy: Obafemi Awolowo

Teacher: (frowns), ah, when were you born?

Second Boy: October 1st, 1960.

Teacher: (Furiously) Have you gone mad?!

Second Boy: Yes, but it was not official until 1963!

**A POEM ADAPTED FROM EASY
WAY TO SUCCESS TEXTBOOK
BY SONIA OKEKE**

AFRICA MY BELOVED CONTINENT

1. Africa my beloved continent,
Flourished with Milk and Honey
With Green Pastures,
The Land of our forefathers
2. Africa my beloved continent
With Black people of all generations
With leaders of our land
With youths that are leaders
With mountains that are as brown as us
Africa my beloved continent
3. People of the same blood
With faces of boldness
Strong and mighty
Africa my beloved continent

**THIS IS WHAT HAPPENS TO YOUR
BODY WHEN YOU EAT OKRA
EVERYDAY**

By LAWAL TENIOLA JSS3

Okra has been used as an alternative treatment for diseases. It turns out that there's research that can back this up. A 2011 study showed that it can reduce blood sugar and normalize your lipid profile. Okra extracts can also help with kidney damage caused by diabetes. It is proven to reduce uric and urine protein and can even protect your body from liver diseases.

Scientist found that its flavonoid and phenol content can help to fight cancer. The Lutein found in Okra can kill seventy-two percent (72%) of breast cancer cells.

**WORDS OF WISDOM
BY REBECCA NWODE**

The road to success is not straight,
There is a curve called confusion
Some Speedbumps called Friends,
Red lights called enemies,
Caution lights called Family,
You will have flat tyres called problems and difficulties
But if you have a Spare wheel called Determination
And an engine called Perseverance
An insurance called Faith
A Driver called Jesus
You will make it to a destination called success.

**LESSON WE MUST ALL LEARN ABOUT LIFE
BY EJIMA PRECIOUS UREDO S.S.1**

1. Always try when there is no hope
2. Never give up
3. It is better to try and fail than never to try at all
4. Losers make excuses, winners make good decisions.
Live & love life to the fullest
5. Life is too short to keep malice
6. Be grateful!
7. Never give up on God....
8. God is always there for you when you think He is not...
9. Learn to live under hard circumstances my dear friends..
10. Make something out of nothing
11. Teachers open the door, now it is left for you to enter
12. Don't displease yourself and please others
13. Never go with the crowd (unless you know they are right)
14. Your personality is not based on your background
15. Be yourself
16. Never waste precious time on things or people that don't matter or add any sensible thing to your life and don't care about your existence.
17. Why keep bad friends when the good ones are out there waiting for you to approach them...
18. Love people for who they are not what you want them to be.
19. Be yourself and not who they want you to be.
20. The journey of life is too short to waste time.

LIFE
ESTHER IFEJIKI JSS3

- Life gives you a second chance that is called “today” and a third chance which is “tomorrow”.
- Everything in your life is a reflection of a choice you have made. If you want a different result make a different choice
- Kill tension before tension kills you, reach your goals before they kick you, live life before life leaves you.
- Success hugs you in private ----- but failure always slaps you in public! That is life
- Life is 10% of what happens to you and 90% of how you respond to it
- Life isn't all about getting and having it's about giving and been given
- Don't trust too much don't hope too much because that “too much” can hurt you so much
- Stop worrying about what you have to lose, start focusing on what you have to gain
- That awkward moment between birth and death is LIFE.
- In life we all have an unspeakable dream and an unforgettable level
- Life is like a roller coaster hat its ups and downs----- its our choice to enjoy the ride
- Life ends when you step and love ends when you stop caring. So dream hope and love ----- makes **LIFE Beautiful !!!!!!!**.

MOTIVATIONS

- If you want to achieve a goal in life you need to have faith and act on to achieve your goal
- PROCASTINATION is the greatest thief of success. To be successful you need to program yourself
- Good or positive thinking and good or positive words leads to positive results
- Making decisions in a wise and timely manner is vital to our peace and success in life
- Good decisions are made through experience, and you get experienced through bad decisions
- Anything that happens to you is just a period of time, so just endure or if a good thing use it wisely
- There are two forces in life, happiness in your relationships and your achievement
- If your goal is set on happiness it is certainly that you are a **failure**
- Always remember this “Do Not Do Nothing Simply Because You Can't do A lot”
- Nothing feels better than knowing you are doing your best
- If you don't have passion for your career or dreams you might not achieve goals and dreams that will come to pass
- **HARDWORK + PATIENCE + FAITH + PRAYER = Success**

WHO OR WHAT DO WE LOVE MOST
BY MARYJANE OKHUMALE

Once upon a time, a man was polishing his car, his four year old daughter picked up a stone and scratched on the side of the car. In anger, the furious man took his child's hand and hit it many times, not realizing he was using a wrench. At the hospital, the child lost all her fingers due to multiple fractures. When the child saw her father, with painful eyes she asked “**dad when will my fingers grow back?**” the man was so hurt and speechless. He went back to the car and kicked it many times. Devastated by his own actions, sitting in front of the car he looked at the scratches, his daughter had written “**LOVE YOU DAD**”. Moral, Remember, Anger and Love have no limits. Also remember that “Things are to be used and people are to be loved”. But the problem in today's world is that “people are used and things are being loved”.

WHY YOU SHOULD PUT GOD FIRST

BY OSUNSANYA BOLUWATIFE

Hey! How are you, I hope you are fine? This article is about why you should put God first in everything you do.

I am going to use myself as the case study, I remember when I was in primary school. I always had problems with Mathematics, then my mum got me a Home Tutor who taught me well enough but I still did not understand it. Then mum asked the teacher to stop and she took over my tutoring herself. I discovered that every time she wanted to teach me she would always pray and then we would start. One day, out of curiosity, I asked her why she always prayed before we started, she said to me “**In all things, you must put God first**” then I started praying too and suddenly within a week I began to understand better whatever she was teaching me!

Another time, I wanted to celebrate my birthday with a party but mum did not have so much money at the time, but when I put the situation into God's hands, out of the blues, she celebrated my birthday and got me so many things!

You see, this is why you should put God first!

Here are some Advantages of Putting God First

- When you put God first you can never be wrong why? Because He will guide you all the way
 - You are always confident because you know that God is with you
 - It improves your spiritual life because you tend to pray more
 - It improves your reasoning ability because you tend to read the Bible more and as you are reading the Bible you get more knowledge on how you can solve such problems.
- So beloved I employ you to put God first in everything you do. Thank you.

JOKE

BY IPAYE ESTHER JSS2

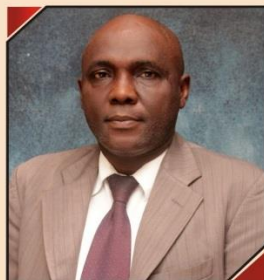

Once upon a time, there was a woman named Mrs. Bastard, she gave birth to three children named: Stupid, Trouble and Foolish. One day, she sent Trouble somewhere and when he had not come after a while, Mrs. Bastard told Stupid to go look for Trouble. On his way, he accidentally stepped on a man's foot and the man called him back and yelled “can't you see that you stepped on me?” Stupid apologized but the man insisted that sorry was not enough. “Clean up my shoes!” he ordered but Stupid said “I can't! I'm in a hurry, I'm looking for Trouble!” the man did not know that was really his brother and said “Oh really? You're looking for trouble? And that's why you stepped on me? You must be Stupid!” “Yes I am sir!” Stupid smiled happily “What?! Are you Stupid? Stupid answered sir how did you know are you a prophet, the man was getting frustrated and said are you foolish, no I am not but my brother is and already angry the man said you're a bastard the boy said no I am not a bastard but the son of a bastard and the man was so frustrated that he left.
